HABITS OF HORSES.

Some Queer Tales Heard by a Reporter In a Street Car Barn. Did you know, boys, that you can teach an intelligent colt or horse to do almost anything by patiently making him go through the performance mauy times, day after day? That is the way the eircus trick horses and ponies are such horses at big prices. A few years ago a boy in western Pennsylvania trained a colt to perform as he had seen horses perform in shows, and when the next circus came around the proprietor gave him \$500 for the animal. The New York Times gives an account of a street car horse named driven Charley for a long time, but baby cub was hardly welcome. Se Bill was discharged one day and a new driver took charge of the horse. The

account says: All went well until the corner of Broadway and Seventeenth street had been reached. Then Charley stopped turned about, faced the driver, elevated his upper lip and opened his jaws. The mau dropped the lines in horror. Re-Inforced by the conductor he tried to get Charley to "tend to business," but the beast was obdurate and had to be taken to the barn, the incident causing some little blockade of travel. The next day the horse went out under fresh guidance and at the same place repeated his previous anties. fellers duuno how to drive a hoss that's nll," remarked Bill, who put in his leisure loafing near the barns. "If you can make him go you can have your place back," responded an

official, who overheard the criticism. "llitch him up," said Bill, "and I'll do the trip on schedule time, you bet.' While waiting for the car to come out Bill went into a neighboring groeery for a moment. Returning, he took the lines, and the outfit went gayly on the cross-town trip, one of the passengers being a company detective who was curious to see how Bill would do it As usual, at Broadway and Seventeenth streets, Charley whirled about and laughed with equine joy in the might not have got through as we did. face of his old comrade.
